

INTERMEDIATE SECTION

Intermediate sections are used to support the Electro-Fence wires. They are not capable of taking any great strain and should not be used if the fence changes direction by more than 20 degrees. The Electro-Fence posts are attached to the existing fence posts and extend above the original fence.

BILL OF MATERIALS

<i>Part No</i>	<i>Description</i>	<i>2.4m Qty</i>	<i>3.0m Qty</i>
EF-200	Electro Post 2.4m	1
